

PECB Certified MS Internal Auditor

Master the ability to conduct and manage a management systems internal audit

Why should you attend?

The Certified Management Systems Internal Auditor training course is designed to provide the knowledge and skills needed for conducting and managing internal audits in accordance with ISO 19011 guidelines, and other best practices. In this comprehensive three-day course, you will learn the fundamental concepts and principles of internal auditing, the competence required for internal auditors, and how to effectively prepare, conduct, and follow up on internal audits.

This training course will enable you to establish and continually improve an internal audit program within your organization, ensuring compliance and effectiveness.

Who should attend?

This training course is intended for:

- Internal auditors
- Individuals carrying out roles and responsibilities related to the management system
- Individuals involved in the auditing and maintaining a management system
- Individuals seeking to become internal auditors or consultants involved in internal auditing
- Individuals responsible for ensuring conformity with management system standards

Course agenda
