

PECB Certified ISO 45001 Lead Implementer

Acquire the competencies to guide and support organizations in establishing, implementing, operating, maintaining, and continually improving an OH&S MS based on ISO 45001

Why should you attend?

The PECB ISO 45001 Lead Implementer is a five-day training course that aims to equip you with the competence to establish, implement, manage, and maintain an occupational health and safety management system (OH&S MS) in accordance with [ISO 45001:2018](#) requirements and guidance. This training course aims to provide an in-depth understanding of ISO 45001 requirements, as well as the best practices and approaches used for the implementation and subsequent maintenance of an OH&S MS. The ultimate ambition of this training course is to enable you to create the conditions for a safer workplace.

The training course is followed by the certification exam. If you pass, you can apply for the "PECB Certified ISO 45001 Lead Implementer" credential. [IAS accredited](#) and internationally recognized, the "PECB ISO 45001 Lead Implementer" certificate validates your competence to implement an OH&S MS based on the requirements of ISO 45001.
